about simplicity

The way in which we exercise is changing. From flexible membership options to 24-hour access, gym-goers increasingly demand sport and exercise facilities that fit around their lifestyles.

In order to survive in a competitive market place, today's gyms need to be both flexible and innovative; and flexible gyms require flexible storage. The solution is Simplicity.

Simplicity smart lockers offer a key-less solution that allows you to set custom access rights to meet your member's changing needs. It's easy to manage and can be and monitored remotely.

We call Simplicity a 'one-stop' solution because our UK-based team can take you from concept and design, to installation and maintenance. We're here to help you get the most from our smart storage solution.

benefits of smart lockers

Easy to use - Simplicity enables members to open a locker using their ID card or smartphone.

Easy Reporting - Centrally managed system with administrator access to usage data and reports.

Safe & Secure - Lockers are engineered to be more secure, so valuables are safe on site.

Easy Management - Integrate Simplicity with other systems, set up business rules and send automated notifications with our software.

Simply Tap - Simply touch an access card to either the control panel or the lock on an available locker to open.

simple management

Simplicity lockers make managing personal storage easy. The management software enables administrators to change configurations, assign lockers, and see in real-time which lockers are in use.

flexible

We know, that for many sports facilities, space is at a premium. Our gym lockers work with business rules, allowing you to give access according to membership level and usage. This, combined with real-time tracking, helps you to understand customer behaviour, making the most effective use of available space.

secure

When visiting a gym, spa, leisure centre or swimming pool, people want to know their personal effects are stored securely. Simplicity gym lockers offer enhanced security features including integral hinges, push-to-open doors, and the option of an integrated intruder alarm, giving your customers peace of mind and leaving them free to concentrate all their energy on their workout.

access options

With traffic light availability and electronic card access, using our smart gym lockers couldn't be simpler. Gym or building access passes can also be set up to provide access to lockers – ideal for gyms that open 24 hours a day.

With the Releezme mobile app offering access to changing room lockers via a mobile phone, members can even choose to leave their access card at home, giving them one less thing to carry around the gym.

Our business rules functionality allows timed access for guests with day passes, and the creation of access rights across multiple locations – perfect if your business is part of a chain of sports clubs.

finishes

As a bespoke product our lockers can be manufactured in a range of sizes, colours and finishes. Additional options include hanging rails, ventilation holes and planters.

A variety of plain, wood and fantasy décors are available including:

Zones

Transform your lockers with high resolution photography or images. Make your storage a feature that showcases unique designs and themed imagery. We use the latest latex printing technology with laminates that are long-lasting, scuff-resistant and durable.
